

Reflecting on a Successful Couple of Years and Anticipating Exciting Developments

Embracing the Future of Digital Finance

North Yorkshire, United Kingdom Feb 1, 2023 ([Issuewire.com](https://www.issuewire.com)) - [fidomoney](https://www.fidomoney.com) has had an exciting and successful journey so far and is now finalizing its 2021 and 2022 audits. Both years were very strong, with 2021 being particularly impressive. Completing the audits is a significant milestone, as it demonstrates the company's commitment to transparency and accountability. The results of the audits will provide valuable information to stakeholders, including investors and clients, helping to build trust

and confidence in the company.

In 2022, fidomoney made a strategic investment in technology and stability. Investing in stability was important, as it ensured that the company's systems and processes were robust and secure. This investment allowed the company to implement stronger security measures, reducing the risk of cyber threats and data breaches. It also enabled the company to better manage its operations, ensuring that it could continue to provide high-quality services to its clients, even during times of disruption or uncertainty.

fidomoney is very proud to have launched new services in 2023, including USD, EUR, CHF, and Debit Cards. These new services will allow us to offer a wider range of financial services to clients and will help the company to further expand its reach.

In addition to launching new services, fidomoney is also working on acquiring an EU license. This license will allow the company to operate in the EU and will provide its clients with greater security, whilst also reaching a larger customer base in the region. It will give customers more confidence in the company's ability to provide secure and compliant financial services. Furthermore, it will allow fidomoney to participate in the EU financial market, compete with established players, and offer a wider range of financial products and services to meet the evolving needs of its customers.

The company has continued to grow and expand and is in a strong position to take on the challenges of 2023 and beyond. As a company, we are on track to becoming a leading provider of financial services. With its strong performance in 2021 and 2022, its investment in technology and stability, and its plans for 2023, the company is poised for continued success.
