

Shop Romantic Leawo PhotoIns & Win Photo BG Remover Freebie During Leawo Valentine's Day Sales 2023

Leawo Software just unveiled an online campaign to celebrate the upcoming Valentine's Day 2023, offering 50% OFF PhotoIns for one-stop photo manipulation solution, and more.

Shenzhen, Guangdong Feb 10, 2023 ([IssueWire.com](https://www.issuewire.com)) - We're sure you'll make it a point to lavish your sweetheart with plenty of love throughout the year, but there's no denying that Valentine's Day offers a great excuse to go ahead. For some, it might be a romantic getaway or a thoughtful gift. Still, if you plan to impress your sweetheart, **Leawo PhotoIns** will be one of the best gifts. This is a 3-in-1 photo solution package to automatically enhance photo quality, remove and change photo background, enlarge photos by up to 40x, etc., which is definitely an excellent gift for girls who love to take photos. Luckily, with the release of the Leawo campaign – [2023 Valentine's Day Promotion Free Giveaway](#), it is 50% off now. In other words, you can buy a lifetime license to use this product for less than \$55 to express your love for her for life. For more details about each product in this bundle, check out the following content.

- **[Photo Enhancer](#)** – As the [best AI Photo Enhancer](#), this software is based on artificial intelligence technology, without manual operation, and can improve the quality of photos in batches with one click. When used as a portrait beautifier, it retouches skin, removes freckles, enhances eyes, adjusts light, and more; when used as a landscape enhancer, it fixes exposure, corrects white balance, enhances skies, optimizes colors, perfects tone, removes blur, boost saturation, sharpen edges, fine-tuning contrast, and more; when used as a RAW enhancer, it fixes lens-related issues such as distortion, chromatic aberration, and vignetting; when used as a JPG enhancer, it You can reduce noise, fix blur, and sharpen details to make JPG images look better.
- **[Photo BG Remover](#)** – Thanks to the smart algorithm, this software provides a one-stop solution for batch background removal. After loading the source photos, the program will automatically and intelligently analyze the cropping edges, enclose the cropped area and

remove photo backgrounds in batches without sacrificing quality and size. Even hair and fur can be cut with precision. Also, for more accurate background removal, manual mode can meet most people's needs. After isolating the foreground to a transparent background, users can easily apply the photo to any desired background or solid color. In addition, various effects can be added to the photo's foreground and background, such as blurring, coloring, shadows, and more.

- **[Photo Enlarger](#)** – Driven by advanced artificial intelligence technology, this software can batch enlarge photos by increasing image resolution instead of simply enlarging pixels, improving color rendering, reducing artifacts, and enhancing detail textures. So no matter how magnified the image is by 2x, 4x, 8x, or even 40x, the image will remain clear and sharp. In addition to photo enlargement, it can also shrink images up to 0.5 times. Most importantly, it removes noise and haze from photos to make zoomed-in images look clearer and more natural, and optimizes contrast, sharpness, and brightness to improve photo quality. All of these can be adjusted automatically and manually. With hardware acceleration, it can speed up batch processing by 5 times.
