

## The Leaf Program Inc Sponsored by Project Lyme Presents “The Quiet Epidemic”

“The sooner you know and understand ticks, the better you can develop behaviors that change the possibility of being bitten.” Dr. Nancy Fox

**Frederick, Maryland Feb 8, 2023 ([Issuewire.com](http://Issuewire.com))** - The Leaf Program, Inc. is pleased to invite you to our first movie event. It will be held at The Urbana Library in Urbana MD, 9020 Amelung St, Frederick, MD 21704 on Saturday, March 18th, 2023, from 12:00 pm to 2:30 pm.

We are blessed this year to be Sponsored by Project Lyme, which is a 501c(3) organization, as we are. Please feel free to join us! We look forward to your attendance and learning about our exciting and new strides in educating children and families in our community.

This is our first year holding this event, as we normally present Vector-Bite prevention classes for Families and children. We thought perhaps seeing the movie “The Quiet Epidemic” explains the why of what we do. We would be honored to have people join us and participate with us and participate in the Q and A portion of the event to glean more information about how Vector-Borne diseases like Lyme and Bartonella, etc. will affect Maryland families.

The showing of this film is an excellent occasion to reach and understand the families, educators, and community partners who collaborate with The Leaf Program, Inc. in striving to ensure that all children in Maryland will reach their full potential, with happy, healthy choices, free of Vector-borne diseases.
