

Yazhou-Huangjin Releases Climate Report and Declares Net Zero Goals

The company presents its initiatives to reduce greenhouse gas (GHG) emissions, improve energy efficiency and promote the use of renewable energy

Fuzhou, Fujian Sheng Feb 18, 2023 ([Issuewire.com](https://www.issuewire.com)) - Yazhou Huangjin, a gold exploration and development company committed to being the gold investment that works for our shareholders, our operating partners, and our communities, today announced the release of its revised Climate Report, which outlines the initiatives being taken by its global business to strengthen the organization's resilience to potential threats associated with climate change. The company's continuous progress toward compliance with the most recent industry standards on climate-related financial disclosures is reflected in the Climate Report.

“Yazhou Huangjin intends to take part in and positively influence a 2050 net zero economy as it is a great gold producer and a large energy consumer. Net zero carbon emissions require industry-wide innovation and innovative technical solutions. We accept these challenges and are committed to making significant strides both internally and in partnership with business associates. As we endeavor to ethically produce gold for the benefit of all stakeholders, we are in the process of incorporating our climate measures into our long-term business strategy”, declared Garrett Fern, Executive Vice President, Chief Sustainability and External Affairs Officer at Yazhou Huangjin.

Yazhou Huangjin actively participates in a number of business projects that are concerned with the environment. The business also lends its assistance to emerging international industry initiatives that seek to find practical answers for massive haul trailer electrification systems. Other initiatives related to climate change issues are being considered and data will be provided in Climate Report updates.

About Yazhou Huangjin

Yazhou-Huangjin.com is a world-class gold mining and exploration company operating in Jiangle County, Fujian, People's Republic of China - one of the world's premier new gold regions. Our mission is to grow into one of the most valued gold mining companies by identifying, acquiring, and managing the

greatest assets and personnel in order to generate long-term profits for our shareholders and partners. We are devoted to cooperating with the nations and communities that will serve as our hosts in order to convert their natural resources into meaningful benefits and shared prosperity. Our portfolio is concentrated on high-margin, long-life assets and encompasses the world's most productive gold areas. As valued members of our communities, we generate economic activity to earn our social license. We monitor the effects of our operations and work to set the standard for the best safety, health, and environmental practices in the industry.
