

BTX Racing Becomes Certified Member of Blockchain Australia

Sydney, New South Wales Mar 24, 2023 ([Issuewire.com](https://www.issuewire.com)) - BTX Racing is excited to announce that they have become a certified member of Blockchain Australia, the leading industry network for blockchain technology in Australia. This partnership is significant as BTX Racing continues to innovate and create new ownership models, experiences, and business processes for horse ownership using blockchain technology.

BTX Racing is among the first companies in Australia to adopt a blockchain-powered mobile application, allowing people to own affordable racehorse ownership. Ownership can be purchased directly from the BTX mobile app, which enables effective management of investor information, KYC requirements, and Racing Australia rules. All transactions are recorded on the polygon blockchain and visible in-app for all owners to see.

By utilising blockchain technology, BTX Racing's innovative solutions enable equitable and transparent access to horse ownership, empowering individuals and communities to participate in the equine marketplace with trust. With a passion for the industry, BTX Racing's founding team is working with key industry partners to deliver the first wave of new products to the Australian Horse Racing Market.

CEO and Founder Steve Piek stated, "Being a certified member of Blockchain Australia is a significant milestone for BTX Racing, it's an added reinforcement to our commitment to innovation, transparency, and accountability in the equine marketplace". The company believes that blockchain technology has enormous potential to revolutionize the horse racing industry, and they are excited to work with

Blockchain Australia to help shape the future of the industry.

To celebrate this milestone, BTX Racing and Blockchain Australia have released a unique NFT Collectible. This NFT is free to claim for everyone for a limited time only and represents a unique moment in BTX Racing's journey. Claim yours today and follow along with the BTX Racing journey as they release some exciting new products over the coming months.

Blockchain Australia is delighted to welcome BTX Racing as its newest certified member. The company has built a blockchain platform that enables affordable ownership of racehorses, creating new ownership models and experiences for horse lovers in a regulated way. Blockchain Australia is thrilled to have BTX Racing join its network of industry leaders committed to driving blockchain adoption.
