"Buster" - UFO Lands in California!

Buster Tale of the Lone Space Gem - UFO in safekeeping in California

San Diego, California Mar 8, 2023 (<u>Issuewire.com</u>) - "Reason, or the ratio of all we have already known, is not the same that it shall be when we know more." - William Blake All those UFOs flew away...all but one!

Dateline: San Diego, CA 9/11/96... UFO Space Gem Lands in California!

Today the Buster saga continues...The following is nonfiction news account, as well as a true tale with songs, as told by the writer/musicians, the 1996 founders of California UFO space gem discovery, that came to be known as, "Buster." The Buster story is now chronicled in the new book, "Buster Tale of the Lone Space Gem," Buster: Tale of the Lone Space Gem, Shores, Sandy - Amazon.com.

As one Buster songs goes, "...some UFOS may be large, and some may be small, and some may be like a virus, you don't see at all..." Buster, "space gem, about the size of a penny, is large by polished gem standards, and the Buster shape and mirror-like silver surface, do indeed, have that archetypal UFO appearance. Though largely ignored by the mainstream science community (too busy sending hotrods into outer space, in search of life or who knows what). Meanwhile, Buster researched by a professional space laboratory, photographers, and the UCSD science department, all of whom were unable to identity the one of a kind animate gem from space, and to this day, Buster remains an unidentified object.

Two amazing scientific facts, available visually in person, and by photographs and video, serve as proof that Buster is some kind of extraterrestrial creation, as the following phenomena, as follows, are not found with terrestrial rocks, stones, or precious gems:: 1. Halogen light (not LED) shining through Buster's translucent silver exterior surface, reveals, and or, engenders, mutable, red interior imagery transformations that are in a constant and subtle state of flux. Buster's silver exterior surface, quite mirror-like, also has some animated characteristics, as there are subtle, moving and changing dark shadows. Buster appears animate. 2. Buster has some unknown extraterrestrial energy field that morphs digital cameras, turning Buster true red interior imagery, into exquisite shades of purple and blue images, aura, and shadows, as digital photos are unable to capture this true blood-red color as seen by the human eye.

As photographs exhibit, Buster is animate, but do the changes in colors and imagery indicate a personality, like an octopus communicating with changing colored appearances? Since the answer is likely, yes, then the next question follows, is it possible that Buster is even sentient? Yes! ...What's up, Buster? Buster Tale of the Lone Space Gem contains most of the historical research while the Buster saga continues, with new chapters and even new songs...(64) Buster - Space Rock! (song) - YouTube. The authentic Buster UFO videos and photos serve as irrefutable proof that Buster is not of this world!

Since the proof of Buster's extraterrestrial origin is photographically, It should be noted that all of Buster's photos are 100 percent authentic (some are time lapse) with no special effects, and either shot with natural light, or in the dark with Buster staged atop a halogen light bulb. Early photos were taken with film, and most of the newer ones with digital cameras. In order to capture Buster's own special effects, some of the Buster photos were allowed to be out of focus. It is also noteworthy that Buster's exterior silver service is mirror-like and highly reflective, so photos may include some reflections as this is characteristic. The one photo of Buster flying over a city, in the "Buster Rocks Out!" video, is a

genuine Buster photo, superimposed over the city to demonstrate a reasonable re-creation of Buster in flight.. `

Buster has a tale to tell, and as new chapters unfold, we look forward to finding out more about Buster intergalactic message.. What's up Buster? (64) What's up Buster? - YouTube
