

Celebrating the Women and Their Achievements in Web3

London, United Kingdom Mar 7, 2023 ([Issuewire.com](https://www.issuewire.com)) - As today marks International Women's Day, the [W3S Group](#) believe it is important to recognize and celebrate the influence of women in the Web3 and cryptocurrency sphere.

Despite facing systemic barriers and discrimination, women are carving out a space for themselves in this emerging industry and are making significant contributions to its growth and development. From developers to entrepreneurs to community builders, women are leading the charge towards a more

inclusive and equitable future in tech.

Here is a list of remarkable women who are shaping the Web3 and crypto landscape and inspiring more women to get involved in this exciting and dynamic field.

- Elizabeth Stark - Co-founder and CEO of Lightning Labs, a company working to make Bitcoin and other cryptocurrencies faster and cheaper to use.
- Kathleen Breitman - Co-Founder and CEO of Dynamic Ledger Solutions, the initial creator of Tezos; a blockchain based platform with an on-chain governance mechanism.
- Amber Baldet - CEO of Clovyr, a company that helps businesses build decentralized applications on blockchain technology.
- Kristin Smith - Kristin is the founder of the Blockchain Association, which develops public policy for Web3.
- Laura Shin - Host of the popular Unchained podcast, which focuses on the latest developments in the cryptocurrency industry.
- Perianne Boring - Founder and President of the Chamber of Digital Commerce, a trade association representing the digital asset and blockchain industry.
- Meltem Demirors - Chief Strategy Officer at [CoinShares](#), a digital asset management firm, and a vocal advocate for the crypto industry.
- Caitlin Long - Founder and CEO of Custodia Bank formerly Avanti Financial Group, a bank that specializes in digital assets, and a former Wall Street executive.
- Joyce Kim - Co-founder of Stellar Foundation, a blockchain platform designed to enable the transfer of money and other assets across borders.
- Jill Carlson - Co-founder of the Open Money Initiative, a research organization that examines the impact of digital currencies on individuals living in authoritarian regimes.
- Yam Karkai - A digital artist known for her illustrations of female characters, particularly within the [World of Women NFT project](#).
- Betty - Co-founder of [Deadfellaz NFT](#) and art collective who creates surreal digital art pieces influenced by hip-hop culture.
- Amber Vittoria - A New York-based illustrator whose colorful and bold artwork often celebrates the female form.
- Julie Pacino - An artist and filmmaker who uses Web3 technology to create interactive and immersive art experiences.
- Sarah Zucker - Creator of the "Cyber Pop Surrealism" NFT collection, which explores themes of technology, identity, and surrealism.
- Grimes - A musician and artist who has created a number of NFT collections, including a series of "WarNymph" NFTs featuring her digital artwork.
- Josie Bellini - An artist and NFT creator who is known for her surreal and dreamlike digital art.
- Krista Kim - An artist and founder of the Mars House project, which sold for a record-breaking \$500,000 in Ethereum in 2021.
- Cathy Hackl - The founder of the Journey metaverse platform. Journey helps some of the top brands in the world in the development of immersive experiences.
- Jemma Green - The co-founder and chairman of Power Ledger, a tech company that unlocks the blockchain for energy trading and energy asset financing.

This list is the tip of the iceberg of significant female leadership in the Web3 space, and we are also aware of a significant influx of talented and visionary women who are contributing immensely to the growth and development of the ecosystem in recent times. As we celebrate International Women's Day, it is essential to recognize the cultural shift towards greater inclusion and representation of women in technology. [W3S](#) believe that we must continue to support and amplify the voices of women in the

ecosystem and strive for a more diverse and equitable industry. By doing so, we can create a more inclusive and innovative digital future for all.
