

Celebrating Women in Web3 on International Women's Day

Los Angeles, California Mar 8, 2023 ([Issuewire.com](https://www.issuewire.com)) - To commemorate International Women's Day 2023, at [Archblock](https://www.archblock.com) we are proud to celebrate the women who are driving innovation and progress in the blockchain and crypto ecosystem.

Here are just a few of the many women who are making a difference in this exciting space:

Elizabeth Stark; Founder and CEO of Lightning Labs

Elizabeth Stark is a renowned expert in the field of Web3, and has made significant contributions to the development and growth of this exciting new technology. She has played a key role in creating the Lightning Network, a layer-2 scaling solution for Bitcoin that enables fast and low-cost transactions. Her work has helped to make Bitcoin more accessible and user-friendly, and has paved the way for the wider adoption of cryptocurrency. Additionally, Stark is a vocal advocate for women in tech and has worked to promote diversity and inclusion in the industry.

Betty; Co-Founder of Deadfellaz NFT

Betty is the co-founder of Deadfellaz, a popular NFT project that celebrates the culture and creativity of the hip-hop scene through a stylized zombie profile picture collection. With her passion for art and her dedication to the fashion scene, Betty has created a unique and engaging NFT project that has gained a loyal following and interest from big name studios.

Amber Vittoria; Artist and Thought Leader

[Amber Vittoria](#) is an artist and illustrator who has made a name for herself in the world of Web3. Her colorful and bold designs have been featured in a wide range of NFT projects, and she has become a respected voice in the community. Her work is both visually stunning and thought-provoking, and it is a testament to the power of creativity being nurtured in this sphere.

Yam Karkai; Founder of World of Women

Yam is the co-founder of World of Women, an NFT project that celebrates women from around the world. With her dedication to diversity and inclusivity, Yam has created a project that is both beautiful and inspiring. Her work is a reminder that Web3 has the potential to bring people together and celebrate our shared humanity.

Monica Ho, CFA; Institutional Capital at [Archblock](#)

Last but by no means least, at Archblock, we are fortunate to have Monica Ho as an inspirational CFA and ambassador for our firm. Monica is a highly respected financial expert who has a keen eye for market trends and investment opportunities. She brings a wealth of knowledge and experience to our team, and we are proud to have her as a part of our counsel.

We believe that the future of Web3 is bright, and that women will play a critical role in shaping this new world. Whether it is through technological innovation, art or financial expertise, women are leading the way forward. We are honored to celebrate the accomplishments of these remarkable women, and we look forward to the many contributions they will make in the years to come.
