

DefiLabs awarded Asia's Golden Star Honesty Master 2023 for leadership in corporate integrity development

Singapore, Singapore Mar 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - On March 1, 2023, the 6th Asia Golden Star Awards Ceremony was successfully held in Tokyo, Japan. Asia Golden Star Awards is an annual event hosted by the Asia-Japan Excellent Entrepreneur Federation (AEEF JAPAN), which has great influence in Asia. It was first held in 2017 and has been recognized by 18 Asian countries. Its purpose is to honor companies and individuals who have made outstanding achievements in the fields of corporate management, personal influence, social contribution, and cultural contribution, and are active in the world and Asian countries. Therefore, this awards ceremony attracted a large number of exceptional talents, government representatives, academic specialists, professors, exceptional corporate representatives, and authoritative media from around the world.

Asia's Golden Star Honesty Master Awards 2023 is the highest honor with the strictest judgment and the most profound significance at this ceremony. After years of hard work, AEEF has established a good reputation. The grand ceremony hosted by AEEF Japan is self-evident for its excellent prestige, solid reputation, and extensive influence. Asia's Golden Star Honesty Master Awards 2023 is to bestow on the corporate that excels in every aspect of corporate performance and holds up the operation concept of honesty and credit first, high quality, and perfect services to customers. Award recipients had passed the examination for the "Asia Honesty Entrepreneur Award", "Asia Honesty Enterprise Award", and "Asia Honesty Product Award".

With its groundbreaking advanced financial technology and trans-epochal excellence in the financial industry, DefiLabs was recognised by "Asia Honesty Awards Review and Adjudication Board" and awarded Asia's Golden Star Honesty Master Awards 2023.

DefiLabs, a pioneer in the field of decentralized finance, has accelerated Web 3.0's development by fusing decentralized finance and artificial intelligence technology to create a new financial platform that is effective, transparent, easy to use, and practical. DefiLabs is a DeFi platform managed by artificial intelligence that helps users in maximizing value and returns. DefiLabs is fully audited by well-known audit companies, CertiK and Cyberscope in order to keep the smart contract free of security threats and ensure the "fairness, openness, justice, and transparency" of smart contracts.

The Asia Honesty Awards Review and Adjudication Board have expressed their full affirmation of DefiLabs' contribution to promoting the development of decentralized finance. In the past two years of operation, it has achieved the expected effects of high returns and stable income and has won the trust of many users as well as unanimous praise from industry experts.

The Asia's Golden Star Honesty Master Awards 2023 is not only a symbol of DefiLabs' success but also an industry benchmark for corporate integrity management. In the future, DefiLab will continue to make efforts in the field of financial technology innovation, so that decentralized finance can give full play to its advantages, benefiting more industries, and covering a wider range of people.
