

Devang Gor, MD, MBA, a Neuroradiologist with Lehigh Valley Health Network

Get to know Neuroradiologist Dr. Devang Gor, who serves patients in Allentown, Pennsylvania.

New York City, New York Mar 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Gor is a skillful neuroradiologist serving as Chair of the Department of Radiology & Diagnostic Medical Imaging, and Co-Chief of the Section of Neuroradiology with Lehigh Valley Health Network.

What he loves to do is to provide the highest quality patient care, stay on the cutting edge of technology, improve workflow efficiency and strategic planning, as well as to empower and get inspired by the people he works with.

In regards to his educational background, Dr. Gor graduated with a higher secondary certificate from Chauhan Institute of Science in 1989, and his Bachelor of Medicine, Bachelor of Surgery degree from Seth GS Medical College, Mumbai in India in 1995.

Going about his training, he performed residencies at Lokmanya Tilak Municipal General Hospital (LTMG), Bombay (1996 - 1997); the University of Tennessee Medical Center (2000); and the University of Medicine & Dentistry of New Jersey (2001 - 2004). He then completed his fellowship in neuroradiology at the Hospital of Pennsylvania (2005 - 2006) and earned his Master of Business Administration degree from Temple University's Fox School of Business in 2018.

With over three decades of experience, the doctor is board certified in both diagnostic radiology and neuroradiology by the American Board of Radiology, which oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

On a professional level, Dr. Gor is an active member of the Pennsylvania Radiological Society (on the Board of Trustees), the American College of Radiology, the American Society of Neuroradiology, and the Radiological Society of North America.

In addition, he is a part of Unified Radiology, which has assembled a board of radiologists and executives from some of the largest, most successful radiology practices in the country.

"There are certain things we can do financially as independent practices—retirement plans, profit-sharing plans, etc. You can craft these things better if you're independent versus being employed by somebody else. Unified Radiology continues to strengthen our position as an independent practice" expressed Dr. Gor.

Neuroradiology is a subspecialty of radiology focusing on the diagnosis and characterization of abnormalities of the central and peripheral nervous system, spine, and head and neck using neuroimaging techniques. Neuroradiologists are doctors who focus on diagnosing conditions of the spine, neck, head, and central nervous system. They use medical equipment, such as computed tomography or magnetic resonance imaging machines, to identify problems.

On a more personal note, Dr. Gor speaks multiple languages, including English, Gujarati, Hindi, and Marathi.
