Are you interested in trying your hands at sewing, but have no idea where to begin? No need to fret, we are here to bring some surprisingly easy sewing projects and new ideas that will help you step into the world of sewing.

Cloth Napkins – Do you ever find yourself or a family member needing a quick napkin, but there isn't one

anywhere around? With our tips and tricks, put your sewing skills to the test and try creating some simple, but useful cloth napkins. Not only is this a great gift to others, but a great gift to Earth as well. Go Green by taking steps in eliminating paper waste in landfills.

Quilted Placemat - This is another one of the astonishingly simple and easy [sewing projects](#) that you can try as a beginner. This two-sided project makes these quilted placemats an eco-friendly way to bring customized décor to your dinner table. You can try a wide range of fabric patterns and colors to match any décor.

Apron – Do you ever hear your family or friends complaining that their clothes are dirty after leaving the kitchen? The gift of an apron takes care of that and is not only thoughtful because you crafted it with your own hands, but because you know they need it as well. Sewing an apron does not need to just be for people who cook, maybe you know someone who works out in the garage or loves to garden. There are even some tips on how to add some pockets to make whatever tasks easier to complete.

Long Jean Skirt – If you are interested in more challenging [sewing projects](#), we have tips on how to convert a pair of blue jeans into a long jean skirt with very minimal sewing.
