

Enhance Your Smile With Invisalign in Claremore

Claremore, Oklahoma Mar 31, 2023 ([IssueWire.com](https://www.issuewire.com)) - Wyatt Orthodontics is proud to announce a new service for our patients in Claremore.

Wyatt Orthodontics is excited to announce we will be offering Invisalign® clear braces. Our Invisalign® clear braces are the latest technology in orthodontics, allowing us to create custom-made aligners that are virtually invisible. This new line of clear braces will allow us to offer more options for our patients who are looking for something that is more discreet.

Invisalign® clear braces are a great option for teens and adults who want to wear braces that can be worn all day but still look natural when they walk out of the dentist's office or doctor's office. [Invisalign® clear braces](#) also allow patients to adjust the aligners themselves by snapping them into place at different times during the day so they can make sure every time they smile their teeth are straight!

If you have any questions about what Invisalign® clear braces might look like on you, or would like an appointment [scheduled for a consultation](#), please contact us today!
