**New York City, New York Mar 9, 2023 ([Issuewire.com](https://www.issuewire.com))** - The Employee Retention Credit (ERC) is a stimulus program designed to assist businesses that were able to retain their employees during the Covid-19 pandemic. Established by the CARES Act, the ERC is a refundable tax credit that businesses can claim for qualified wages and healthcare paid to employees. ERCfilenow.com is proud to offer hassle-free filing services for small and mid-sized businesses looking to claim this important credit.

The ERC offers up to \$26,000 per employee and is available for 2020 and the first three quarters of 2021. To qualify, businesses must have been negatively impacted in either of the following ways: a government authority required partial or full shutdown of their business during 2020 or 2021, or gross receipts reduction criteria is measured against the current quarter as compared to 2019 pre-COVID amounts.

"Small and mid-sized businesses were hit particularly hard during the pandemic, and the ERC is one of the few stimulus programs designed to directly support them," said a spokesperson for ERCfilenow.com. "Unfortunately, the process of claiming the credit can be daunting, especially for businesses that are already struggling. ERCfilenow.com offers a range of services to assist businesses with ERC filings. "Many businesses are still struggling to recover from the pandemic, and the ERC can provide crucial support during these challenging times," said the spokesperson. "At ERCfilenow.com, we are committed to providing our clients with top-notch service and support, so they can focus on what they do best -
