

Ethereum Worlds Releases Open Edition NFT, Offering a Piece of Metaverse History

Road Town, Tortola Mar 27, 2023 ([Issuewire.com](https://www.issuewire.com)) - [Ethereum Worlds](https://www.ethereumworlds.com), the luxury Metaverse platform, announced today that it will be releasing an Open Edition NFT. The NFT will be made available for purchase starting on Friday, March 31st until Wednesday, April 5th on the Manifold NFT platform. The Open Edition will feature imagery from the original concept designs of [Ethereum Towers](https://www.ethereumworlds.com), its genesis project, and its first virtual destination.

The Open Edition NFT will be available for a limited time. Once the sale has concluded on Wednesday, April 5th, the NFT will not be made available again.

Every Open Edition NFT owner will receive access to a special token-gated Penthouse in the [Ethereum Worlds](https://www.ethereumworlds.com) Metaverse. This exclusive benefit is available to all Open Edition NFT owners, granting them access to this highly-desired space in the [Ethereum Worlds](https://www.ethereumworlds.com) Metaverse. This will be an amazing opportunity to view curated art collections, participate in meet-and-greet sessions, and attend premium-hosted events.

"We are thrilled about the Open Edition and its potential benefits," remarked Jason, the CEO of [Ethereum Worlds](https://www.ethereumworlds.com). "In addition to receiving an NFT for display, owners also gain access to an exclusive token-gated Penthouse, where the lucky few can experience the pinnacle of virtual living and immerse themselves in a world of opulence and exclusivity."

The Open Edition NFT provides a rare opportunity to own a part of Metaverse history. This unique piece

of Ethereum Towers imagery is not only a chance to be a member of the Ethereum Worlds community, but also a unique digital ownership experience.

Please note, this functionality will not be included in the forthcoming Metaverse MVP scheduled for release in early summer. For now, though, we look forward to you joining us in this journey toward creating a more interconnected and socially dynamic world.

About [Ethereum Worlds](#):

[Ethereum Towers](#) is an innovative, community-focused social platform set in the forthcoming Ethereum Worlds Metaverse. This VR-first platform comprises 4,388 highly-customizable, resident-owned apartments, alongside various interconnected communal areas and commercial spaces.

Designed by the renowned architects at RM Visuals, these state-of-the-art Towers will serve as the flagship residence within an ever-expansive Metaverse development designed to provide a dynamic, immersive, and socially engaging experience.

A limited number of Apartments are currently available, for more information, please visit their Discord <https://discord.gg/ethereumworlds> or website <https://ethereumtowers.com>.
