

Expanding Horizon: QASource Opens New Offices in Canada and New York

QASource, a leading software testing company, has announced the opening of new offices in Toronto and New York. These new locations will enable QASource to offer its clients in Canada and New York access to a physical office and faster response time.

Pleasanton, California Mar 30, 2023 ([IssueWire.com](https://www.issuewire.com)) - QASource, a leading software testing company, is expanding its global presence with new offices in Canada and New York. This move is a reflection of QASource's dedication to delivering exceptional software testing services to

its clients worldwide.

With the opening of new offices in Canada and New York, QASource will be able to offer a wider range of manual and automated software testing services to clients operating in these regions. Clients will now have access to local expertise and faster response times, making it easier for them to address any software testing issues that arise.

This will also enable QASource to better serve its clients, with an understanding of the unique needs and requirements of these regions.

QASource's expansion into Canada and New York is a significant milestone for the company.

It demonstrates QASource's commitment to delivering the highest quality software testing services. The new offices will allow QASource to build even stronger relationships with its clients, further expanding its business foothold.

This is truly an exciting time for QASource and its clients, and the company is looking forward to seeing the benefits that this expansion will bring to the customers.

About QASource

Headquartered in Pleasanton, California, with an office in Chandigarh, India, QASource is one of the world's leading software QA providers.

Since its foundation in 2002, QASource has grown to become an international organization with thousands of professionals servicing a variety of clients ranging from VC-funded startups to Fortune 500 companies.

QASource has demonstrated a growth rate of 20% to 50% annually and is a market leader in test automation services.

QASource customers have had successful exits exceeding \$15 billion in M&A transactions.

The company provides dedicated outsourced quality testing engineers and expertise to clients that need to deliver thoroughly tested code for internal and commercial applications.

QASource's proven approach combines extensive training, dedicated teams, and optimized communication protocols to quickly onboard new clients, deeply integrate with their development teams, and maximize their output, quality, and speed.

The company makes substantial investments in its staff, including rigorous onboarding processes, ongoing learning programs, work-life balance policies, and dedicated engineers for each client.

The result is QASource's industry-leading staff retention rates which reduce team disruption and maximize productivity.

An exceptional NPS score and long-term client retention rates prove that for over 20 years, QASource has led the industry in offshore quality engineering.
