

Homam Badri, DPM, a Podiatrist with One Oak Medical

Get to know Podiatrist Dr. Homam Badri, who serves patients throughout the State of New Jersey.

New York City, New York Mar 7, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Badri is a seasoned podiatrist with a passion for providing his patients with personalized and high-quality care. He is based at One Oak Medical in New Jersey and is currently accepting new patients at their offices in Wayne, Paramus, and Clifton. He offers his expertise in flatfoot reconstruction, minimally invasive bunion surgery, revision surgery, arthroscopy, deformity correction, and sports medicine related to the foot and ankle.

As a person who suffers from flatfoot pain himself, he understands the importance of conservative lifestyle treatments to improve his quality of life. He works closely with his patients to achieve their objectives, whether that involves surgical intervention or non-surgical options.

Educated in the United States, Dr. Badri received his undergraduate education at Montclair State University in New Jersey and earned his Doctor of Podiatric Medicine degree from the Temple University School of Podiatric Medicine in Philadelphia. After graduation, he completed an internship and residency in podiatric medicine and surgery at Mount Auburn Hospital, an affiliate of Harvard Medical School in Cambridge, Massachusetts.

With extensive training and experience in foot and ankle surgical procedures, the doctor is board-certified by the American Board of Podiatric Surgery and is a proud member of the American College of Foot and Ankle Surgeons and the American Podiatric Medical Association. He has also published and presented on a wide range of foot and ankle topics and has lectured internationally on adult flatfoot reconstruction.

Recognized as a leader in his field, Dr. Badri is the innovator and creator of the 3D minimally invasive surgery (MIS) bunionectomy®, a technique designed to properly correct the bunion deformity in the correct 3 Dimensional anatomical way. Patients from all over the country seek out his expertise in this area, as well as his leadership in the minimally invasive bunion surgery trend in New Jersey.

Podiatry is a branch of medicine devoted to the study, diagnosis, and medical and surgical treatment of a variety of disorders of the foot, ankle, and lower extremities. A podiatrist, also known as a podiatric physician or a foot and ankle surgeon, is a medical professional devoted to the treatment of disorders of the foot, ankle, and lower extremities. They can treat injuries and complications from ongoing health issues like diabetes.

Outside of his work, Dr. Badri enjoys spending time with his family, serving as an educator for residents and colleagues, and pursuing innovation in foot and ankle surgery.
