

## Hudson Valley Farm To Table Restaurant

**Hudson, New York Mar 3, 2023 ([Issuewire.com](https://www.issuewire.com))** - Aroma Thyme Bistro, a Hudson Valley restaurant that is known for its commitment to using pure and locally-sourced ingredients, is proud to announce the arrival of the very finest imported Italian foods.

Chef Marcus Guiliano and his wife Jaime have spent the last 15 years traveling all over Italy, Spain, California, the West Coast of the US, and down into Mexico including Oaxaca. This allows them to make direct connections with the producers they support whether it's food or alcohol. As a result of their travels, Aroma Thyme Bistro is now an Italian food importer, bringing small-batch, artisanal Italian foods to the Hudson Valley.

"While balsamic vinegar is one of the most popular Italian foods in the United States, most mass-produced vinegar lacks the quality and flavor that refined chefs and foodies are looking for," says Marcus. "That's why we're thrilled to be able to import the very best balsamic vinegar from Acetaia Paltrinieri in Modena. Their award-winning vinegar is small batch and artisanal, making it a world of difference from the mass-produced vinegar that's commonly available."

Acetaia Paltrinieri has been producing award-winning balsamic vinegar for the last 200 years, and Aroma Thyme Bistro is honored to support its 200-year family legacy.

"Our customers will now have access to the most hard-to-find and high-quality Italian foods," says Jaime

Guiliano. "We're excited to be able to offer these small batch, artisanal products to our community."

Customers can purchase imported Italian foods directly from Aroma Thyme Bistro, and soon they will be available at stores in the Hudson Valley. An online ordering system will also be set up shortly.
