

Introducing "Intelligenz" - A Mesmerizing NFT Art Collection by Obsessive Mimicry

Los Angeles, California Mar 24, 2023 ([Issuewire.com](https://www.issuewire.com)) - Intelligenz, a stunning collection of 100 unique animated artworks, is now available for art lovers and collectors worldwide. Created by the internationally acclaimed artist [Obsessive Mimicry](#), the collection is a visual representation of the human experience that explores the boundaries of perception and consciousness.

Each piece in the Intelligenz collection features a humanoid face with vibrant colors and textures that capture the essence of natural energy flow. These faces are so expressive that they appear alive, absorbing the human body's unique physical appearances and chemical properties. By blending the physical and the energetic, these images create a transmutation of forms that's akin to the psychedelic experience of astral projection.

But Intelligenz is more than just a collection of images – it's an experience. As you explore the world of Intelligenz, you'll be transported to another world, where each piece will immerse you in the beauty of the unknown. The collection is not only visually stunning, but it also creates a journey through the boundaries of perception and consciousness.

Intelligenz is not just any NFT art collection – it is a one-of-a-kind masterpiece that captures the essence of the human experience in a way that's never been seen before. So don't wait – come explore the world of Intelligenz today and immerse yourself in the beauty of the unknown.

[The Intelligenz collection](#) is available to mint on [Foundation](#) starting April 1, 2023. Visit the official website to view the collection and purchase your own one-of-a-kind NFT artwork today.
