

Kim Le, DDS, MS, a Dentist in Private Practice

Get to know Dentist Dr. Kim Le, who serves patients in Mansfield, Texas.

New York City, New York Mar 1, 2023 ([IssueWire.com](https://www.issuewire.com)) - Dr. Le is a dentist who specializes in general, cosmetic, and restorative dentistry. She is currently serving patients' dental needs at her private dental practice in Mansfield, Texas. Providing her family of patients with everything from comprehensive exams and cleanings to dentures, crowns, bridges and implants, Dr. Le takes time to get to know each patient, answering questions and explaining procedures, before treatment begins.

Dr. Le and her team wholeheartedly believe in providing excellent dental care that is family-oriented and where the patient is the main focus. They engage in continuing education classes throughout the year in order to bring the latest techniques and procedures to patients.

In addition to general and cosmetic dentistry, Dr. Le is a specialist in prosthodontics with extensive training in the diagnosis, treatment, and rehabilitation of clinical situations beyond the skill level of an ordinary general dentist, including the placement of dental implants to provide a foundation for replacement teeth and to regain the ability to eat and smile with confidence.

A graduate of the Baylor College of Dentistry in Dallas, Dr. Le completed her residency in prosthodontics there as well. She also holds a Master of Science degree in biology from the Texas A&M College of Dentistry. Dr. Le has been listed among America's Top Dentists every year since 2005 to the present, as well as a Fort Worth Top Dentist in 2007. She has also gained the notable status as a life member of Who's Who.

Dr. Le is a member of the American Dental Association, the American College of Prosthodontists, and the Academy of Osseointegration. In addition to English, Dr. Le speaks Vietnamese. In her spare time, she remains active with Teresa Charities and Agape Charities. She is also involved with many activities, including the Cub Scouts with her son.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy. In order to help patients' teeth look their best, Dr. Le offers a choice of Invisalign Clear Aligners and Fastbraces for straighter teeth and a better functioning mouth and jaw. She can also fix gaps and chips with natural-looking porcelain veneers or give patients a dazzling white smile with laser tooth whitening.
