

London L. Jones, DC, a Chiropractor with Feel Good Chiropractic

Get to know Chiropractor Dr. London L. Jones, who serves patients in Fresno, California.

New York City, New York Mar 10, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Jones has been practicing advanced, quality chiropractic for patients of all ages, from newborns to geriatric patients, at Feel Good Chiropractic.

Feel Good Chiropractic has been voted the #1 chiropractic office in the Fresno and Clovis area by its patients. The office offers a complete range of chiropractic services, with special attention in treating auto accidents, using a holistic approach.

Utilizing some of the best physical therapy equipment, Dr. Jones provides the best quality of care in one of the most relaxing environments available. He strives to make every visit as comfortable as possible by being gentle and courteous.

He has a good working knowledge in physiology and nutrition, which provides a unique alternative to traditional approaches in medicine such as drugs and surgery. He also stresses patient education as an integral part of the wellness process.

Having been practicing since 1996, Dr. Jones successfully received his Doctorate of Chiropractic Medicine at Los Angeles College of Chiropractic (SCU) Southern California University of Health Sciences, formerly known as LACC. Thereafter, he conducted extensive post-doctoral training in different areas of chiropractic.

Over the years, Dr. Jones has successfully treated thousands of patients that have been injured in auto accidents as well as many sports injuries from high school to the professional ranks including the NBA and NFL.

Attending continuing education courses yearly, he has subscriptions to peer-reviewed journals, and has been an expert witness in personal injury trial cases.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of biomechanical disorders of the musculoskeletal system, especially the spine. These disorders can also cause negative effects on the neurological system of the body, as well. A chiropractor uses spinal manipulation and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo and a long list of other ailments and conditions. They aim to improve patients' physical functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.
