

Meet Q Magnets at the Pacific Sports & Orthopedic Acupuncture Symposium (PSOAS) 2023

Q Magnets will be exhibiting at PSOAS 2023 from March 30th to April 3rd in San Diego, California.

San Diego, California Mar 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - Q Magnets, a magnetic field therapy brand by Neuromagnetics Australia Pty. Ltd., a leader in magnet therapy technology for over 12 years, will exhibit their advanced therapeutic magnets and magnetic mattress pads product line at the Pacific Symposium in San Diego, California.

The mission of the [Pacific Sports and Orthopedic Acupuncture Symposium](#) (PSOAS) is to bring together practitioners from around the globe and provide not only amazing educational offerings, but also foster greater community in the field. The 2023 PSOAS will focus on Myofascial Pain: Assessment and Treatment. The conference will be held at the Marina Village Conference Center, San Diego, CA 92109 from 30th March to April 3rd 2023.

Q Magnets is excited to exhibit at the 2023 PSOAS as we believe our products are a perfect addition to any acupuncture and orthopaedic practice. [Research](#) shows that multipolar magnets can be an effective modality to stimulate acupuncture points and are also able to reduce musculoskeletal pain. The Q Magnets line consists of acupuncture magnets as well as larger therapeutic magnets for physiotherapy and orthopaedic application for soft-tissue injuries and joint pain.

Q Magnets are a TGA listed Class I medical device in Australia and designed to help provide comfort or temporary relief of minor aches and pains (e.g., from muscle soreness/stiffness, arthritis). Q Magnets produce an optimised field and provide the acupuncturist with an additional modality to target

acupuncture points, dermatomes, trigger points and meridians in a way that is safe, specific, simple to use and provides a 24/7 application option.

The Q Magnets team will be happy to meet you at the exhibition (booth E2) where you can get to experience Q Magnets products including our acupuncture magnets, pain relief magnets and magnetic mattress pads. It's the perfect opportunity to meet the co-founder and managing director, James Hermans.
