

Orhan Veli Karaman: OVK Technology The whole world will hear its name

OVK Technology The whole world will hear its name

Izmit, Kocaeli Mar 8, 2023 ([IssueWire.com](https://www.issuewire.com)) - Orhan Veli Karaman: OVK Technology has come of age

Orhan Veli Karaman, the founder of OVK Teknoloji, which provides services to 14 countries in the field of informatics, including the TRNC and the UK, said, "OVK Technology has come of age in 14 countries. Now, our new goal is to raise your brand value even more and to announce our name to the whole world in the sector".

Orhan Veli Karaman, an IT expert, and entrepreneur, who has transformed OVK Teknoloji, whose foundations he laid in 2017, into a global brand serving 14 countries in 6 years, inspires young entrepreneurs with his success story. Karaman, who has offices in the Turkish Republic of Northern Cyprus and England outside of Turkey, talked about what is being wondered about: "I was born in Kocaeli in 1996. I have been interested in the digital world since my school years. My dream has always been to create my own brand. I studied informatics and worked at many levels of the industry, including web design. In 2017, I established the OVK Teknoloji brand, which provides services to companies in the field of management and digital services."

OUR REFERENCES GREAT US

Stating that his dream has always been to establish a company that serves in the international arena, Orhan Veli Karaman said, "We proved our age thanks to the references of the international companies we serve in Turkey," and added: "In 2022, we established our company called OVK Technology and opened offices in the TRNC and the UK. Today, we provide services to 14 countries in the field of informatics. Today, we have business partnerships with companies that lead the sector in their own fields. Our goal is to bring the OVK brand and services to more countries and to make its name known to the whole world by increasing its brand value. My team and I are working to achieve this."

MUSIC IS MY SAVING

Karaman, a successful entrepreneur who is also interested in music besides informatics, stated that music has an important place in his career journey: "Music has an important place in my life as much as informatics. We work under intense stress. In times like these, music is my savior. I produce in my own studio. It is among my plans to share these productions with people in the digital environment. Musically, I've come a long way. I plan to make the announcement when I feel ready."
