ENLIGHTENMENT OF THE SOUL

Reflections of a soul growing through life's experiences

RAINIER

Wilmington, Delaware Mar 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - Poetry excels in posing questions, upsetting our sense of security, and forcing us to view things from new perspectives while incorporating a variety of viewpoints. That is the purpose of poetry. It is an effective platform for varied voices to be audible and for others to do the same. A form of expression--writing enables us to express our thoughts and feelings about a subject, whereas reading inspires us to connect and derive significance from our experiences. Children's learning of social and emotional skills can benefit from poetry. It gives them a fresh perspective on a subject. Adults find an outlet to express complex emotions that well up from the inside. Poetry will live on for as long as human intuition looks for an escape through words.

Poet Rainier takes readers on an eloquent journey of the soul and a compelling exposition of emotions in his book, *Growth! Enlightenment of the Soul: Reflections of a Soul Growing Through Life's Experiences*.

In the book *Growth! Enlightenment of the Soul* (Balboa Press AU, 2023), Rainier expands on his life experiences, insights, and ideas. The poet offers a poetic look into his ongoing quest for emotional fulfillment and growth via candid thoughts that reveal the polarities of emotions like joy and sadness, success and failure, the ecstasy of love and the heartache of loss, the smiles of contentment and tears of emptiness. Each poem explores the deeper meaning of life, provoking the readers' ideas, introspection, and self-expression.

"My expectation is for readers to develop the emotional strength and a strong drive to explore deeper aspects of the self through the experience of their individual lives." -- Rainier states.

A snippet from the poem *Pathways* reads:

Reflect on that voice within in the still of the night.

Feel your heart's yearning, for therein lies your direction.

Many roads you must travel to complete the journey of your soul.

Look not in despair for the riches you failed to acquire,

For all you will take beyond the cold cauldron is learned within.

Rainier provides an insightful journey for readers through weaved words laced with lessons and emotions. He inundates everyone with artistry, passion, and creativity.
