

Sublime Clinic – Offering DHI Hair Transplant for Painless Treatment and Life-Changing Results

Bern, Switzerland Mar 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - Sublime Clinic is an all-inclusive beauty and aesthetic clinic in Turkey and Switzerland. The clinic has been using state-of-the-art technology and high-quality treatment procedures by qualified dentists and specialists. They have been using Direct Hair Implantation (DHI) as it's a painless procedure, with no scars and stitches required to provide 100% natural results. Performed using a specialised pen-shaped tool and considered the most

advanced and effective hair treatment option. All procedures are done and supervised under experienced doctors, suitable for both extraction and implantation of hair follicles. For more information, please visit: <https://sublime-clinic.ch/>

DHI is widely recognized as the world's best hair transplantation technique. Unlike FUE and FUT techniques, Direct Hair Implantation is a completely safe and painless approach. It avoids unsightly scars and holes; only local anesthesia is used so patients can comfortably undergo the entire process. It is the only hair treatment that guarantees the full growth of 90% of implanted hair follicles. The patented technology gives specialists precise control over implantation and the design of completely natural-looking results. The care of each follicle ensures maximum germination and successful restoration of lost hair for a lifetime.

Sublime Clinic is a specialist in [hair transplant in Qatar](#), using the DHI method for the modern and safest hair micrografting technique. They are experts in cosmetic surgery and work in collaboration with the best clinics in Turkey and Switzerland to give tailored DHI hair transplants to fill the bald areas of your scalp. This procedure gives both men and women a natural hair result, without visible and discreet scars over the long term. Whether your hair loss is due to androgenetic alopecia (baldness), trauma, or hormonal problem, the DHI technique will give you natural and permanent results.

The clinic uses two latest-generation methods, FUE and DHI hair transplantation to leave no scars and deliver desired results. Apart from high-quality hair transplant services, Sublime Clinic is offering a wide range of cosmetic surgery and aesthetic treatments to boost your confidence. They are specialists in providing [plastic surgery in Qatar](#) to eliminate excess fat, restore firmness and reshape the lines of your silhouette. They offer a wide spectrum of services to meet your needs, including body lifts, liposuction, mommy makeover, abdominoplasty, breast operation, facial operation, rhinoplasty, teeth operation, and eye laser surgery.

About Sublime Clinic:
