

ValeVPN named Top 10 VPN by TechRound Top53 List! March 2023

ValeVPN, a new cloud security service, has been recognized by TechRound as one of the top 10 VPNs in the world in the first-ever TechRound VPN53 Roundup. The service offers blazing fast, easy-to-use, dedicated, single-use private servers.

Casper, Wyoming Mar 4, 2023 ([Issuewire.com](https://www.issuewire.com)) - LONDON, United Kingdom - We are delighted to announce that [ValeVPN](#) has been named in the top 10 VPNs in the world on the [Top 53 VPNs in 2022](#) by TechRound, UK's fastest-growing startup and tech news site.

The competition followed a round of judging from an expert panel: Nathaniel Fried, Co-Founder at TurgenSec, Lara Joseph, Senior Account Director at Eskenzi PR, and David Soffer, Editor-in-Chief at TechRound.

This was TechRound's first-ever VPN53 roundup, highlighting the best of VPNs globally.

[ValeVPN](#) was ranked number #8 among the other big names in the industry.

[ValeVPN](#) is the world's first and only cloud security service offering fully dedicated, blazing fast, easy-to-use privacy and security servers on the web. Launching in November 2022 on Kickstarter, ValeVPN was the top Software Kickstarter of the year.

ValeVPN features stand out when compared to the competition:

- **Fast.** You can instantly create single-use private servers for fast & secure communications.
- **Dedicated.** Your server isn't shared with countless other people. Single-use, it's all yours.
- **Secure.** You get your own single-use IP with your throw-away server. Virtually unblockable security.

[ValeVPN](#) is a new service on the market, but it is growing rapidly and has already gained sponsorships from the largest cloud providers. To learn more and get access to this amazing new service, visit www.valevpn.com
