

VOSD Trust, India's largest non-profit/ NGO for rescue and rehabilitation of dogs announces the expansion to 2000+ dogs

Bengaluru, Karnataka Mar 22, 2023 ([Issuewire.com](https://www.issuewire.com)) - VOSD Trust today announced the capacity expansion of the VOSD Sanctuary to over 2000 dogs from its present 1400. VOSD is India's largest trust for the rescue and rehab of stray dogs and runs the VOSD Sanctuary -- the world's largest no-kill shelter for stray dogs.

Over 20,000 dogs have been rescued across India by the VOSD Trust over a decade. VOSD brings to the VOSD Sanctuary at least 1 dog per day from across various cities and towns in India; we facilitate the transport of all our rescued dogs; by rail, road, or air, depending on case requirements.

VOSD Trust also runs India's largest referral veterinary hospital for dogs. VOSD Sanctuary only admits dogs that vets won't treat in different parts of India, or their owners won't. It can be a lack of intent, expertise, money, or all of the above. The VOSD Sanctuary Hospital has India's most sophisticated, state-of-the-art rehabilitation and medical facilities.

Rakesh Shukla, Founder of the VOSD trust said, "VOSD has grown tremendously in the past few years but there are lacs of stray dogs on India's roads and thousands of Indian stray dogs and abandoned pet dogs that still need our help. We get 100+ requests from across India for permanent homing of the neediest dogs per day. It is imperative for us to keep expanding."

The VOSD Sanctuary has specialized accommodation and care protocols for

- Paraplegic dogs
- Blind dogs
- Quadriplegic dogs

- Dogs on lifelong renal or liver care
- Dogs on lifelong heart care

VOSD Sanctuary also has specialized kennels with

- 30 temp-controlled medical kennels for post-op recovery
- 30 quarantine kennels to quarantine the dogs coming into the VOSD Sanctuary
- 10 glass-made isolation kennels for dogs diagnosed with any communicable diseases
- A temperature-controlled puppy section for motherless pups where they live till their vaccinations are complete

According to Beena Malikaveetil, Sr Director -- Marketing Strategy & Donor Engagement of the VOSD Trust, "When you look at the blind or mutilated street dogs or the old, abandoned pet dogs at the VOSD Sanctuary you wonder what was their life before they reached the safety of the VOSD Sanctuary and Hospital. We believe these dogs are living the best days of their lives now that they are safe with us."

With no government funding, VOSD is largely dependent on individual donations from compassionate animal lovers and organizations so that we can continue to grow and build to save more dogs – a goal we must pursue to provide love and care to thousands of dogs who continue to endure sickness, starvation, diseases, apathy, and cruelty on Indian streets.

ABOUT VOSD

VOSD is India's largest dog care brand as well as products and veterinary services provider for dogs. VOSD comprises 'SHVAN' VOSD professional veterinary services, veterinary hospitals, and dog care products as well as VOSD TRUST - which is India's largest non-profit for dogs.
