

## Warren J. Gallimore Has Delivered His Finest Creations and the Listeners Cannot Keep Calm!

With three new versions this time, the immensely talented Warren J. Gallimore is back, and this time with absolute bangers! Listen to all the tracks on Spotify now!

**Decatur, Mar 11, 2023 ([IssueWire.com](https://www.issuewire.com))** - The popular singer, songwriter, and producer of the international music industry, **Warren J. Gallimore** has returned to the music scene and this time he is feeding his fans well. With the triple treat of three new versions of the hit track "**I Just Wanna Tell You....**" with **Austin Leeds** featuring **Emarie**. The release of three different versions was anticipated and upon release, the tracks were received with open arms and immense support.

'[I Just Wanna Tell You... \(House Remix\)](#)', '[Solo Quiero Decirte... \(House Remix\)](#)', and '[I Just Wanna Tell You... \(House Instrumental\)](#)' are the latest three different versions that are setting the stage on fire. The popularity of the tracks along with the artist is soaring high and with the acceptance and support that the original release got, it was meant to be successful. The house remix to the track created a different, more enjoyable symphony that the audience is completely enchanted with. The collision of an up-and-coming songwriter with a talented music producer creates something worth remembering and the tracks are exactly that.

The songwriting is beautiful and well-written, capable of perfectly expressing the true message that the artists intended. On top of that, the heavenly vocals of Emarie add an extra layer of emotion to

the track. **Warren J. Gallimore** has done an incredible job remixing the original tracks and releasing the House remix which increases the enjoyment of the tracks to several levels. The tracks are available on [Spotify](#), [SoundCloud](#), and [YouTube](#). For more details, the fans who want to get some extra glimpse of the artist, follow him on [Instagram](#), [Facebook](#), and [Twitter](#).
