

21-Year-Old Entrepreneur Robert Rouillier Makes Waves in the Vending Machine Industry with VendingWhale

Jacksonville Vending Business Acquires Additional Vending Companies

Jacksonville, Florida Apr 9, 2023 ([Issuewire.com](https://www.issuewire.com)) - Robert Rouillier, a college dropout turned entrepreneur, has taken the vending machine industry by storm with his business, VendingWhale. The provider of healthy and traditional vending machines has gained popularity in the Jacksonville area, going head to head with large vending machine businesses such as Canteen. Rouillier's journey began with a single old vending machine he bought from a retirement home for \$300, which has now evolved into a scaled business that generates nearly \$20,000 a month, with more than 40 locations throughout the city and multiple employees.

Recently, Rouillier made headlines with his latest acquisitions - the Smartbox vending route from parent company Smartbox Company LLC and a Coca-Cola route from Maldo Mart Vending Services. The purchases further expanded VendingWhale's reach in the industry. The company serves notable locations like the City of Jacksonville, JEA, Baptist Hospital, WJCT, and The Jacksonville Zoo.

Rouillier's passion for providing affordable and healthy snacks for the community led him to drop out of college and pursue his dream. A native of the Jacksonville area, Rouillier has been living in the region for some time and moved here to start his business in January of last year. Not only has he grown his business, but he has also created job opportunities for others in the area.

Rouillier firmly believes that everyone has the potential to build themselves up in the community, regardless of their background or circumstances. He wants to inspire others to pursue their passions and turn them into successful businesses, just as he has done with VendingWhale.

In addition to providing job opportunities, Rouillier has a strong commitment to giving back to the community. VendingWhale donates 10% of its profits towards ocean conservation efforts, reflecting Rouillier's passion for environmental sustainability. At some locations, such as the Jax Humane Society, VendingWhale donates a portion of its profits to local charities. Rouillier believes in supporting the community and giving back to causes that align with his values.

Rouillier's business model aims not only to provide healthy snack options to the community but also to make a positive impact in the world. His dedication to sustainability and charitable giving reflects his commitment to building a better future for everyone. His success story is a shining example for young entrepreneurs everywhere. With his latest acquisitions, VendingWhale is undoubtedly a force to be reckoned with in the vending machine industry.
