

Alfonso Limone, DMD, a Dentist with Dental Associates of Lakewood, P.A.

Get to know Dentist Dr. Alfonso Limone, who serves patients in Lakewood, New Jersey.

New York City, New York Apr 28, 2023 ([IssueWire.com](https://www.issuewire.com)) - Dr. Limone is a general dentist who is highly trained in cosmetic, prosthetic, periodontal and implant dentistry.

As the Practice Director of Dental Associates of Lakewood, P.A., he is proud to carry a forty-year legacy as one of the leading respected dental practices in Lakewood, New Jersey.

What differentiates him and his associate, Dr. Michael Merke, from others in the field is their passion to go above and beyond for all their patients. “We bring happiness to our patients by enhancing their appearance and boosting their self- esteem,” says Dr. Limone.

After graduating from the University of Medicine and Dentistry of New Jersey, Dr. Limone completed advanced training, investing thousands of hours in continuing education. He has been in continuous practice for more than two decades, certified by both the New York and New Jersey Boards of Dentistry.

His passion for staying current with literature and research are the foundation of his great professionalism and integrity. Dr. Limone has been a member and participant in many organizations, including local Study Clubs, the Academy of General Dentistry, the International Association of Orthodontics, the American Academy of Cosmetic Dentistry, the Appliance Therapy Practitioners’ Association, and the New Jersey Dental Association.

Gratified to treat multiple generations of families from the practice started by Dr. Robert Greenman, Dr. Limone feels humbled and grateful to be the chosen entrusted successor. “Patient-centered, old-world services are still delivered, but with an eye to the future,” he says.

Dentistry is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the teeth, gums, mouth and jaw. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They correct bite issues, perform surgeries, address tooth decay, design esthetically beautiful smiles and perform other duties to ensure that the mouth is healthy.
