

AOSEED Launches X-MAKER V4.0 3D Printer

A User-Friendly 3D Printer with Built-In Gamification Apps

Shanghai, China Apr 25, 2023 ([Issuewire.com](https://www.issuewire.com)) - **AOSEED**, a leading provider of cutting-edge educational technology, has announced the launch of X-MAKER V4.0, a user-friendly 3D printer with built-in gamification Apps. Designed for children and beginners who want to unleash their creativity and bring their ideas to life. X-MAKER is the perfect tool for anyone who wants to explore the world of 3D printing.

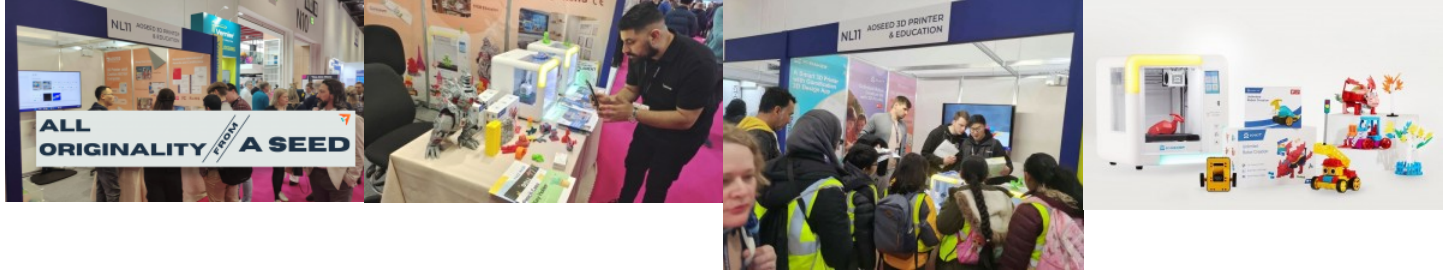

[AOSEED X-MAKER V4.0 3D Printer](#) was recently showcased at the *Bett Show 2023*, the Global Community for Education Technology in London, and received a lot of positive feedback from visitors, especially most of them were educators and schoolteachers. The exhibition, which took place over three days, brought together some of the world's leading educational technology providers, and gave attendees the opportunity to discover the latest products, trends, and insights in the field of education technology.

At the exhibition, AOSEED demonstrated X-MAKER V4.0's **One-Press-Printing** technology, as well as the X-MAKER [Gamification App](#) with built-in mini-programs. Visitors were impressed with the ease of use and user-friendly features of this 3D printer and were particularly excited about the gamification aspect, which adds an extra layer of fun and interactivity to the 3D printing experience.

"We were thrilled to be part of the Bett Show 2023, and to showcase X-MAKER V4.0 3D printer with supporting teaching resources to educators and visitors from around the world," said WIKI Wang, CO-Founder of AOSEED. "The exhibition was a great opportunity for us to connect with like-minded individuals and organizations, and to demonstrate the power and potential of 3D printing and gamification in education."

[X-MAKER V4.0](#) is now available for order on [AOSEED Shopify Store](#), and it is so excited to see what its users will create with this innovative and user-friendly 3D printer.
