

Autistic Artist Sets Sights on Feature Film Project

A love story sure to delight everyone

Aurora, Illinois Apr 19, 2023 ([Issuewire.com](https://www.issuewire.com)) - Meteorite Entertainment is excited to announce its upcoming feature film *Figmental State*, set to begin production TBA. The film is a coming-of-age drama about an overprotected teenager who finds love at the cost of his imaginary friendship.

In order to make this film a reality, Meteorite Entertainment seeks funding from the community to support the production. The company has set up a GoFundMe to raise funds for the production. The funds will

go towards paying the cast and crew, equipment and location rentals, catering, and the many other unexpected expenses that will arise during production.

“I believe *Figmental State* is a story for everyone, including a new generation of those coming into their own. Those who haven’t found themselves yet and will never know unless they break free. Free from fear, from pain, from isolation, from what’s been established. The unknown may be scary but it’s something we all have to face someday. I just hope this story makes a good stepping stone for someone just wanting to simply break free, especially in the autism community.” - Roberto Espinosa, writer/director

Though *Figmental State* is helmed by an autistic filmmaker - and aimed at an autistic audience - it is also meant to inspire anyone who feels trapped in a world with a limited future.

Meteorite Entertainment is proud to be a part of the Chicago film community and looks forward to sharing this exciting project with the world.

For more information on *Figmental State* or to contribute to the film's production, please contact Roberto Espinosa.

Meteorite Entertainment is an award-winning independent production company committed to creating engaging and thought-provoking films for audiences worldwide.
