

Clifton Physical Therapy and 3DM Diagnostics partner to bring cutting-edge technology to physical therapy

Clifton, New Jersey Apr 24, 2023 ([Issuewire.com](https://www.issuewire.com)) - Clifton Physical Therapy, a leading physical therapy clinic, and 3DM Diagnostics, a pioneer in 3D motion analysis technology, are proud to announce their partnership to bring the latest advancements in physical therapy to patients in the Clifton area.

Through this partnership, Clifton Physical Therapy will now offer 3DM's state-of-the-art motion analysis technology to its patients. This innovative technology allows for highly accurate and detailed assessments of a patient's movement patterns, enabling Clifton Physical Therapy's team of expert therapists to create personalized treatment plans that address each patient's unique needs.

"We are thrilled to be partnering with 3DM Diagnostics to bring their cutting-edge technology to our patients," said Tiffany Zarcone, Clinic Director of Clifton Physical Therapy. "Our goal has always been to provide the highest quality care to our patients, and this partnership is a significant step towards achieving that goal."

3DM Diagnostics' technology uses advanced sensors and cameras to capture a patient's movements in 3D, creating a detailed analysis that can be used to identify areas of weakness or potential injury. This technology is especially useful for athletes, as it can help them optimize their performance and prevent injuries.

"We are excited to be working with Clifton Physical Therapy to bring our technology to more patients," said Dr. Joe Simon, CEO of 3DM Diagnostics. "Our mission is to help people move better and live healthier lives, and we believe that this partnership will allow us to achieve that mission on a larger scale."

Clifton Physical Therapy and 3DM Diagnostics' partnership is a testament to the power of collaboration in healthcare. By combining their respective areas of expertise, these two companies are working towards a common goal: improving the health and well-being of their patients.
