

CRUX Launches Play-to-Earn MMORPG and AI Platform with Crypto Ecosystem

CRUX Tokenomics Designed to Incentivize Holders and Grow Ecosystem

Lisboa e Vale do Tejo, Portugal Apr 24, 2023 ([IssueWire.com](https://www.issuewire.com)) - Introducing CRUX, the fuel that powers a **Play-to-Earn game and AI platform providing** access to market analysis, social sentiment, and on-chain data through AI analysis. The survival MMORPG game on Metaverse offers in-game items with monetary value that can be traded on the NFT marketplace, allowing players to hold and earn more CRUX.

CRUX's AI platform collects subscription fees, which are shared exclusively with CRUX holders, making it an essential tool for traders to analyze and compare various markets seamlessly. All fees generated by the Marketplace and AI subscription are shared among the holders of CRUX, incentivizing them to continue supporting and enhancing the ecosystem.

The **tokenomics of CRUX** incentivizes holders to continue supporting and enhancing the ecosystem with an 8% fee split into reflections, liquidity, and growth. CRUX has been listed on PancakeSwap, and the contract has been audited and fair-launched, with vesting locks and LP locked. KYC did.

CRUX gameplay is already on youtube.

Experience the demo pre-alpha gameplay on April 26th and join the CRUX_CRYPTOS Telegram community for updates.

CRUX aims to revolutionize the gaming industry by creating a P2E experience and powerful financial platform that leverages AI and machine learning technologies. Join the journey to revolutionize the gaming and financial industry with the help of GPT-powered technology.
