

ERPCA Practice Management Software Adds Multilingual Capabilities on Mobile App

India's most feature-rich, mobile-app and cloud-based practice management software suite for CA & tax consultant firms, now supports use in 9 languages on its mobile app, making it the first solution in India to do so.

The graphic is a promotional banner for ERPCA. On the left, a dark blue box titled 'Few GROUND-BREAKING features' lists 12 bullet points: Workflow automation, Practice oriented SOP, Billing Management, Advanced Geo-location wise Attendance tracking, Understand your resource load quickly, Easiest way to transfer load from one team member to other, Update multiple Task(s) status in one click, Customer statements on one click, Auto daily/weekly reporting of team member work done, Advanced way to manage the due dates effectively, and Send Reminders to customers for Task due dates, Billing dues, or data pending for task without missing any single customer. In the center, a large blue arrow points right, containing the text 'Advanced online office management tool for Chartered Accountants'. Below this arrow are four colored boxes with contact information: a green box with '100% PROVEN EXPERIENCE', a red box with a phone icon and '+91 8451051084', a yellow box with an email icon and 'support@erpca.com', and an orange box with a globe icon and 'www.erpca.com'. On the right, the ERPCA logo 'ERPCA Practice With Ease' is shown above a screenshot of the software interface. Below the screenshot is an illustration of a man in a suit sitting on a stack of gold coins, holding a tablet that displays a map.

ERPCA
Practice With Ease

Thane, Maharashtra Apr 25, 2023 ([Issuewire.com](https://www.issuewire.com)) - Business software solutions provider and data automation studio, Woodapple Software (<https://www.woodapples.in>) has released the latest version of **ERPCA** practice management software with multilingual capabilities in 9 languages. Besides English, ERPCA can now be used in the following regional and international languages on its mobile app: Hindi, Marathi, Gujarati, Tamil, Telugu, Bangla, Kannada and Arabic.

With this latest release, ERPCA has further differentiated itself as the most user-friendly and feature-rich software solution for Chartered Accountants, Company Secretaries, Tax Consultants, and allied Professional Services firms. ERPCA is already the first and perhaps the only practice management solution available in India for the CA, CS & tax consultant community to offer a powerful mobile app to manage their office operations as well as customer relationships.

“Our full-featured mobile app had added an entirely new dimension to practice management, helping speed up digital transformation and enablement of CA, CS, and related consultancy companies. However, the ability to use our software in regional languages can be a game changer for companies spread across India,” said Sujeet Karn, CEO of Woodapple and the chief product architect of ERPCA.

“We are committed to making ERPCA the best software solution for business management that any CA firm will need. We are continuing to build features to improve efficiency and effectiveness in every aspect of their operations with uncompromising attention to ease of use, convenience, security, and cost-effectiveness. Stay tuned for news of more such exciting upgrades!”

About ERPCA

ERPCA is the flagship software solution of Woodapple Software, a business software solutions

company. It is the most advanced and user-friendly office automation and practice management software suite for the niche community of Chartered Accountants, Company Secretaries, Tax Consultants, and allied professional services firms. Adopted by over 6,000 users across India, its comprehensive capabilities include workflow and task management, employee/ resource management, client relationship management, billing management, and advanced business analytics, to name a few. Fully cloud and mobile-app-based, ERPCA can be used in 9 languages, on a Subscription-as-a-Service (SaaS) model. Users will also get world-class support through multiple channels to ensure seamless operation.
