Vancouver, British Columbia Apr 3, 2023 ([Issuewire.com](https://www.issuewire.com)) - [P2Earn Inc.](https://www.p2earn.com) (CNSX:PXE, FSE:WH4), a Canadian tech company offering blockchain gamers an integrated online platform, has become the first play-to-earn gaming guild to be listed on the public markets. The company is poised to take on the multi-billion dollar NFT gaming market with its unique automated platform. The company was formed

following the acquisition of the existing NFT gaming guild, Jellyworks, Inc., by an already publicly listed vehicle.

P2Earn Inc. announced that the alpha version of its platform would be [launching in Q2 of 2023](#). The launch follows the completion of its successful beta testing, which generated positive returns during an eight-month period with just a few beta testers. The company claims that it should be able to rapidly scale its business model by attracting existing and new players from around the world.

The platform integrates all operational aspects of the gaming guild, including NFT allocations and loans, game selections, payouts, customer support, and new member registrations. Players have real-time access to their earnings and account information, as well as easy access to available NFTs for selected games

The play-to-earn gaming market is rapidly expanding, with more games utilizing the business model and online marketplaces for trading video game NFTs being developed and released each year. A report published by Brandessence Market Research predicts that the global play-to-earn market could reach a market value of \$65.7 billion by 2027.

About P2Earn Inc.:

P2Earn Inc. is a publicly traded company based in Vancouver and listed in Canada (CNSX:PXE) Frankfurt (FSE:WH4), and the US (OTCMKTS: GOOLD). The company provides a comprehensive online solution for players in the rapidly expanding blockchain gaming sector. Play-to-earn gaming allows players to receive tangible value from their in-game accomplishments and activities through exclusive digital assets known as NFTs, which can be purchased, sold, and traded like physical assets.

P2Earn Inc. incorporates the play-to-earn model into its online platform. The company serves as a resource for skilled gamers, equipping them with equipment and financing through NFTs to improve their earnings and play-to-earn game performance. Any profits generated are split between P2Earn and the player.
