

Groove.cm, The World's Fastest Growing Online CRM, Launches

FREE Lifetime Offer

Long Island, New York Apr 8, 2023 ([IssueWire.com](https://www.issuewire.com)) - GrooveDigital software development company, led by CEO Mike Filsaime, the creator of some of the most influential software and strategies that have changed the way we all market, is launching Groove.cm.

Groove.cm (customers matter) is the better way to build funnels, manage customers, and sell products

online -- combining more than 18 powerful apps into one.

After seeing exponential growth since opening the beta to the public over a year ago, Groove.cm now has more than 470,000 users.

Making Groove.cm the world's fastest-growing online CRM for digital and e-commerce marketers.

“We got the idea from what we’re seeing others in our industry do,” commented Filsaime. “Everyone was giving free feature-locked accounts or extending the trials on software products. But we wanted to give more. We didn’t think it was right to turn around and charge people later if they got used to using our service. So we decided to make it completely free forever.”

The response has been phenomenal. People are using just Groove to create their websites, build funnels, sell physical and digital products online, host webinars, manage membership sites, affiliate programs, and so much more.

With the focus on empowering entrepreneurs to reach unmatched levels of financial freedom, Groove.cm has evolved so much in the last year, adding more features and a better user experience with more to come.
