

IICAN – A Premier Institute Of Learning Dedicated To The Beauty And Wellness Industry

Pune, Maharashtra Apr 17, 2023 ([Issuewire.com](https://www.issuewire.com)) - IICAN, a premier institute of learning dedicated to the beauty and wellness industry, is a place of high quality extensive learning for both doctors and non-doctors. The Institute has earned many prestigious certifications such as ISO, IAF, IAO and many more. And most recently, IICAN has been certified as a NATIONAL SKILL DEVELOPMENT CORPORATION (NSDC) and Skill India affiliated training institute.

IICAN is a place of unlimited training and hands-on experience for its students. The faculty is composed of industry experts with extensive knowledge and experience, who focus on providing the best practical training for their learners. They are not only proficient practitioners but ardent forecasters who study the ongoing trends in the Wellness and Beauty industry and prepare their students to face all kinds of challenges.

Looking at the current aesthetic trends of 2023, there are many non-invasive aesthetic treatments that have entered the beauty space. These procedures, being non-invasive in nature, have attained huge popularity with a wider range of people and are expanding more than ever before. These involve cosmetic procedures such as Botox, Body Sculpting, Lip Filler, Skin Tightening, and Medical Facials such as Micro needling.

Social media is also a great influence on the popularity of these aesthetic treatments. People want the best look on Facebook and Instagram (no filters!) but still get the most natural look possible.

IICAN is confident that there will be an exciting year for the aesthetics industry in India, as we move past the pandemic and get our lives back on track. Non-invasive aesthetic procedures will continue to gain more popularity in 2023.

Some of the top courses at IICAN are:

[Post Graduate Diploma in Clinical Cosmetology \(PGDCC\)](#)

[Post Graduate Diploma in Clinical Diet \(DCD\)](#)

[Diploma in Scientific Weight Management \(DSWM\)](#)
