

KOLDAO Receives Support from Chiliz Labs Ecosystem Fund to Boost OG Ecosystem Development!

Futiga, Western Apr 3, 2023 ([IssueWire.com](https://www.issuewire.com)) - KOLDAO recently announced its receipt of support from Chiliz Labs' ecosystem fund, taking an important step forward in promoting OG ecosystem development.

KOLDAO is a Socios platform ecosystem project incubated by Chiliz Labs, aimed at providing an effective platform for OG community members in the digital asset field to participate in development and decision-making. The OG Fan Token (OG) is a functional token that provides fan participation in team decisions through Chiliz blockchain applications and services. Socios is a blockchain-based fan interaction and rewards platform for sports and entertainment supported by Chiliz. The mission of KOLDAO is to promote the development of the OG ecosystem.

Chiliz is a global company that deals with sports and entertainment blockchain and launched its incubator and accelerator program, Chiliz Labs, with the support of Jump Crypto. This \$50 million program is aimed at investing in early-stage blockchain projects that use the Chiliz blockchain for sports and entertainment, as well as the Socios.com partner network. Chiliz aims to create the largest fan, brand, and developer community in the sports and entertainment industry, building an exclusive sports Web3 ecosystem.

With the support of Chiliz Labs' ecosystem fund, Chiliz Labs will continue to support and assist KOLDAO's development, promoting innovation and progress in the fan economy in the digital asset

field. Both parties will provide OG community members with better services and broader development space, injecting new vitality into the development of the entire digital asset ecosystem.
