

Mawaqif Qatar, the leading car park operator in Qatar

Maintaining its leading position in the local market towards vision 2050, the company is expanding its support with a wide range of services, engaging subject matter personnel, and preparing to operate in a wider territory.

Doha, Qatar Apr 18, 2023 ([Issuewire.com](https://www.issuewire.com)) - Mawaqif Qatar has emerged as the leading car park operator in Qatar. The Company's reputation for expertise in parking operations, facilities management, technology development and infrastructure services has enabled it to partner with several reputable organizations and businesses in the region.

As part of its new project, [Hamad Medical Corporation](#), [Mawaqif Qatar](#) implemented their state-of-the-art ticketless valet system consisting of a 100% cashless payment policy to provide customers with a seamless parking experience. Customers can conveniently make payments using online card payment methods. There are 16 valet service locations available in the hospitals with over 9,000 parking spaces. Mawaqif Qatar's goal is to ensure that every customer's parking journey is hassle-free and efficient.

Mawaqif Qatar was delighted to have an opportunity to provide its ["Elegant Valet" service](#) at what was the highly anticipated [Al Shaqab Presented by Longines event in 2023](#). It was an honor to be a part of such a prestigious occasion where we provided our top-notch service to all attendees. With approximately 160 cars expected per day, our team ensured the highest level of customer service.

Part of the technological advances Mawaqif Qatar has developed is the Ticketless Valet System. It is user-friendly and meets all requirements, including vehicle damage reporting and driver tracking. It can send tickets via WhatsApp and can even be used for arranging car washes. The system can be deployed in a matter of days at multiple locations with tariff flexibility and an advanced call-in feature. Additionally, it offers an API ready for any kind of integration.

Mawaqif Qatar was also proud to be part of the [Hayya App QR code integration at Abu Samra Border parking](#) during the FIFA World Cup Qatar 2022. All international visitors holding a Match Day Pass were able to book parking through the Hayya App and enter or exit the car park by scanning the Hayya QR code at the barrier. More than 9,000 transactions were processed.

During this year, parking operations will be upgraded with the latest digital technology, allowing parkers to enter the car park without a ticket and pay fees using their license plate number. Payment can be made through online channels, including phone or touchless screens.
