Sound God 2: The Summer vibes of 2023

Norfolk, Virginia May 12, 2023 ([IssueWire.com](http://www.IssueWire.com)) - Looking for the perfect vibes for this summer? Well Sound God 2 is Hot and full of the most sophisticated balance of Rhythm and Melodies. From start to finish, This is no doubt one of Kxng Sir's best works yet. With features from Top Underground Virginia and Alabama artists, the self proclaimed "God of Rhythm and melody" has dazzled us with a comprised digital cd of a delicate mixture of Hip-hop, Trap rap, R&B, and alternative Hip-hop. With its rhythmic cadence, semi-dark tone and melodic balance, the whopping 16 track mega mixtape doesnt give you a

feeling of over-saturation of the same sound. Not much is known about The Artist from Chicago but he is definitely one to take notice too. The second installment of Kxng Sir's "Sound God" is twice as fire, twice as Satisfying, with twice as much content as it's preceeding volume. Kxng Sir is definitely not an Artist you want to miss. We can all suspect great things coming from the artist in the future.
