

NASSCOM and Cranes Varsity Announce Partnership to Launch Embedded Software Engineering Boot-camp Program

Upskilling for Success: NASSCOM and Cranes Varsity Collaborate to Train 10,000 Engineering Graduates in Embedded Software Engineering

Bengaluru, Karnataka Apr 5, 2023 ([Issuewire.com](https://www.issuewire.com)) - India's IT-ITeS Sector Skill Council, NASSCOM, has joined forces with Cranes Varsity to offer a program that aims to bridge the gap between education and industry and address the issue of unemployment among engineering students who remain unemployed due to a lack of industry-oriented skills in Embedded.

In response to this challenge, NASSCOM has partnered with Cranes Varsity, an Education & Technology company pioneer in Embedded training since 1998, to offer an Embedded Software Engineering Boot-camp Program. This is a timely response to the demands of the industry and the growing need for skilled professionals in the field of embedded software engineering. The program is designed to train and deploy 10,000 students at various locations.

The pilot program commenced today, April 3, 2023, and will be a 450-hour Offline program conducted at Cranes Varsity Bangalore. The training will be conducted by highly qualified trainers with over 10+ years of experience in the field. Students will receive hands-on training and support that will help them bridge the gap between education and industry.

The collaboration aims to provide job-oriented programs that equip students with the necessary skills to succeed in the industry. "We are excited to partner with IT-ITeS SSC NASSCOM and launch this boot camp Program to upgrade the technical skills of engineering students & graduates," said Mrs. Arpita Mitra, Vice President of Cranes Varsity. With the support of highly qualified trainers, students will upgrade their technical skills and have the potential to make a significant impact on their employability through the job opportunities offered by IT-ITeS SSC NASSCOM Industry hiring partners.

In conclusion, the partnership between NASSCOM and Cranes Varsity is a promising initiative that aims to equip engineering graduates with the necessary skills to succeed in the industry.

About Cranes Varsity

Cranes Varsity is a pioneer in education and technology, focusing on engineering and software domains. Founded in 1998, the company has provided high-quality training and certification programs in Embedded Systems, IoT, VLSI, Data Science, and Java, among other areas. With a team of highly qualified trainers and industry experts with over 10+ years of experience, Cranes Varsity has trained and deployed thousands of professionals who are now contributing to India's IT sector. The company's mission is to provide job-oriented programs that equip students with the necessary skills to succeed in the industry and contribute to India's global reputation as a hub for innovation and technology. Cranes Varsity is headquartered in Bangalore, India, and has a strong presence nationwide.
