

Procolored Showcased its Innovative Printers and Patent Technology at ISA Expo

Las Vegas, Nevada Apr 15, 2023 ([Issuewire.com](https://www.issuewire.com)) - Procolored, a leading name in the DTF printing industry, recently showcased their latest offerings at the ISA Expo. The company's booth was a highlight of the expo, with live demonstrations of their innovative printers and cutting-edge patent technology. This article takes a closer look at Procolored's range of printers and technology, and what visitors experienced at their booth during the expo.

Introduction

Procolored is known for its innovative and high-quality printing solutions. The company's booth at the ISA Expo was a must-visit destination for anyone interested in the latest developments in the printing industry.

Procolored's Innovative Printers

Procolored's range of innovative printers on display at the ISA Expo included:

Procolored DTF Printer: Procolored's Direct-to-Film (DTF) printer was a popular attraction at the expo. Visitors were impressed by its ability to produce high-quality, vibrant, and durable prints on a variety of substrates, including cotton, polyester, and nylon. The Procolored DTF printer is designed to produce high-quality, vibrant, and durable prints that are washable and long-lasting.

Procolored 2-in-1 UV DTF Printer: Procolored's 11.8" 2-in-1 dual heads A3 UV DTF laminating printer was another popular attraction. Its high resolution, versatility, speed, low cost, and durability make it an ideal choice for businesses looking to increase their productivity and profitability.

Procolored UV Printer: Procolored's UV printer was also on display, demonstrating its ability to print on a wide range of substrates, including wood, plastic, and metal.

Procolored's Patent Technology

Procolored Anti-Clogging Technology: Procolored's Anti-Clogging Technology was a highlight for many visitors. They were impressed by its ability to prevent clogging in the printer nozzles, ensuring smooth and consistent printing.

Procolored White Ink Circulation System: Procolored's White Ink Circulation System also garnered a lot of attention, with visitors admiring its ability to prevent the white ink from settling, ensuring that prints are always vibrant and bright.

Conclusion

Procolored's commitment to innovation and excellence was on full display at their booth during the ISA Expo. Procolored's one-stop-shop approach to printing solutions has made them a top player in the industry, and their range of products and services is sure to impress visitors at the ISA Expo. From printers and ink to substrates and accessories, Procolored has everything customers need to produce high-quality prints with ease.
