

Protective Masks Direct Introducing Exclusive Line of Powered Respirators: Ultimate Solution for Respiratory Protection

Protective Masks Direct, a UK-based leading supplier of respiratory protection equipment, is proud to introduce its exclusive line of powered respirators.

Tunbridge Wells, Kent Apr 18, 2023 ([Issuewire.com](https://www.issuewire.com)) - Protective Masks Direct, a UK-based leading supplier of respiratory protection equipment, is proud to introduce its exclusive line of powered

respirators. They offer a full range of affordable air-fed masks approved of EN12941, which boasts all required equipment in one package. These rechargeable respirators pull fresh air through the filters while keeping contaminants at bay. Hence, they offer a consistent flow of fresh air to the wearer, ensuring the wearer remains fully protected against toxic airborne contaminants.

Protective Masks Direct's Jetstream is a belt-mounted rechargeable [powered respirator](#) that comes with a large-capacity disposable dust filter. Hence, it offers the ultimate solution for respiratory protection while collecting a large number of airborne particulates for a longer duration. Meanwhile, it offers extreme comfort and protection to those working in hazardous work environments.

Speaking about their new line of exclusively powered respirators, a spokesperson of Protective Masks Direct said, *"At Protective Masks Direct, we understand the need for an advanced solution for respiratory protection. So, we have come up with our special range of respirators for protecting users working in dangerous work environments. Our powered respirators come integrated with advanced filtration technology to offer a consistent supply of clean air to the user. For instance, our Jetstream delivers 180 lt/min of air via its flexible hose to the desired head top. This lightweight equipment comes jam-packed with all necessary gears to make it easy to use for extended periods without any discomfort."*

For their new line of powered respirators, Protective Masks Direct has worked closely with some of the leading manufacturers to meet the needs of various industries. Their respirators come with adjustable straps around the head to make them more wearable and comfortable for longer periods. Their new respirators are also available in a range of models, like PowerCap Infinity PAPR, Kite Airhood Powered Respirator Mask, [Sundstrom SR 500](#) Powered Air Unit, and more. Each model has its distinct features to offer superior respiratory protection at their own level.

The spokesperson further mentioned, *"We are extremely thrilled with the launch of our new powered respirators at Protective Masks Direct. Each **air-fed mask** offers the utmost comfort and protection to the wearer. We are also continually working towards research and development to enhance the performance of our products. As a result, we consistently deliver the best respiratory protection solutions to the consumers."*

Besides their exclusive collection of new respirators, Protective Masks Direct provides a wide range of several other respiratory protection products, like disposable masks, air-fed masks, and reusable masks. Our comprehensive range of respirators ensures that wearers have better access to the best respiratory protection products to meet their needs. Visit their official website to learn more about their exclusive line of powered respirators and other respiratory protection equipment.

About Protective Masks Direct:

Protective Masks Direct is the UK's leading supplier of respiratory protection equipment. They offer a comprehensive range of respiratory protection equipment, such as disposable masks, air-purifying respirators, full-face respirators, and disposable masks. The company is dedicated to offering high-quality respiratory protection equipment for workers across the country. Their new line of powered air-fed respirators is a testament to this dedication.
