

ScalaCode Ranked Among Top 1% Mobile App Development Firm by Upwork

April 14, 2023 - ScalaCode feels proud in stating that we have achieved a prominent position among topmost mobile app development agencies in the world.

Houston, Texas Apr 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - ScalaCode basks in the glory of getting recognized globally as a [top mobile app development company](#) with excellent expertise in transforming digital experiences using the latest technologies. We are happy to share our achievement of becoming part of the leading mobile app developers across the globe with exceptional performance in delivering result-oriented services to clientele with highly-acclaimed brands. It is our command over our work that compelled us to get established as a reputed mobile app development service provider in various industries and get identified as a trusted partner of global businesses.

We express our gratitude in announcing our feat of getting ranked among the finest mobile app development entities for jaw-dropping proficiency in delivering quality-focused solutions to renowned businesses across the world. Our excellence made us make history in the IT industry within a timeframe barely anyone can imagine. With a long list of projects under our belt, ScalaCode has been adept at maintaining over 90% client retention rate with guaranteed satisfaction and on-time project delivery. We have a huge dedicated team of well-trained and highly qualified coders who are accustomed to using modern tools and newer technologies to develop high-quality applications for clients. And they do all that keeping the relevancy and viability of the concerned app idea in mind. Our ideology and mastery over our job are the backbones of our establishment that translate into adding value to the business of our patrons.

Being a well-known mobile app development company on the cloud, we got featured for our performance-centric work on Upwork, Clutch, Glassdoor, Appfutura, GoodFirms, and other highly-praised research & review firms out there. Our strong presence in the mobile app development industry inspired us to become a market leader in a massive sphere of mobile app arenas. Thanks to our web design and development team that kept honing their skills and methodologies to deliver soul-pleasing software that gained ground on the respective app stores.

At ScalaCode, our developers consistently challenge themselves to come up with new concepts and keep up with the ironclad strategy to build feature-rich apps for Android, iOS, Wearable, iPad, IoT, and iBeacon devices. From strategic consulting to mobile app and web app development, we provide world-class services to transform untapped ideas into reality. Since its inception in 2011, ScalaCode continues to climb the ladder of success while keeping quality and credibility in check. Being accredited for the specialization in constructing fantastic apps with all the bells and whistles, we are ahead of the curve when it comes to revolutionizing the digital industry with effective mobility solutions. We develop apps that not only attract and engage targeted fellows but also motivate them to stay on the mobile pages for a long time. Every mobile app development project that gets handled at ScalaCode is set to draw maximum monetary gains with the integration of the tried and tested technologies.

We love doing what we do and our coders are poised for outstanding mobile app development. With agile methodologies and a well-thought approach, we can yield impressive results in your project by supporting it with eye-catching mobile app design and development solutions. So, please get our professional services right off the bat as we are specialized in rendering qualitative apps for diverse departments.
