Hong Kong, Hong Kong S.A.R. Apr 5, 2023 ([IssueWire.com](https://www.issuewire.com)) - Shirley Choi Wins Prestigious Honor at the 2023 Global Music Awards with Original Composition “Green Warriors - Judgment Day”

Happy Diamond Music Studio is pleased to announce that founder Shirley Choi won the Silver Medal at the 2023 Global Music Awards. Choi earned the honor with her original song "Green Warriors - Judgment Day," which debuted at Hong Kong Palace Museum SHOWTIME concert in October 2022. The competition was judged by accomplished industry leaders, including Grammy and Emmy winners.

The sweeping orchestral piece is from Happy Diamond Studio's multimedia property, GREEN WARRIORS. "Green Warriors" is currently available as an app for children ages four and up. It's an adorable game that teaches the importance of environmental conservation. Players guide a dragon to collect and sort falling objects into recycling bins. As the game plays, Choi's soundtrack soars.

Happy Diamond Music Studio plans to expand the Green Warriors IP to eBooks, podcasts, and more. "Judgment Day" is one of several pieces belonging to the Green Warriors songbook, so fans of Choi's work have more to look forward to as Green Warriors develops into additional projects.

"Green Warriors - Judgment Day" was selected from a vast pool of internationally renowned applicants, including Matthew Carl Earl, Heartstrings (USA) - "Chinese New Year 2023" album, and Yoon Ho Kim (Korea), the main composers from the game music "Honor of Kings - In the Name of Kendo." Out of a substantial number of composers from over 30 countries, Choi was the only composer of Chinese origin to win a silver medal for the game music category this season.

In response to her accomplishment, Choi said, "Winning a silver medal in the game music category competing against talented composers from around the world is a profound recognition and honor to me as an independent composer and video game developer. My music and video games center around the conservation theme. As a composer, I like to do my part to make this world a better place through my music and to bring joy, happiness, and hope to my audience." Notably, Choi's other properties all focus on nature conservancy by teaching kids that they can make a difference in the fight to save the planet.
