

SVC launches free downloadable M&A resources for business owners

Honolulu, Hawaii Apr 19, 2023 ([IssueWire.com](https://www.issuewire.com)) - SVC (Staffing Venture Capital), an M&A advisory firm specializing in the staffing industry, has recently launched an M&A resources page on the firm's company website. The page serves as a platform for free downloadable guides designed to help entrepreneurs understand the complexities of mergers and acquisitions.

Through this platform, staffing industry executives and owners can gain access to a range of niche-focused M&A resources that were previously unavailable online. The material is written in simple and easily digestible content for entrepreneurs of all backgrounds.

According to Eric Allison, Managing Partner at SVC, his team will continue adding free relevant resources to the page. "This page was designed to simplify a complex topic for any business owner to easily understand," he says.

Apart from providing general M&A resources, the platform also includes guides specifically for staffing

firm owners and operators. Allison adds, “SVC’s M&A references page is part of our ongoing commitment to providing the staffing industry with business solutions they need to succeed.”

SVC has provided multiple business owners with strategic M&A advisory and with the recent uptick in transactions in the staffing industry, is expected to close several deals this year. The firm has recently shifted its main business focus to M&A advisory, capital raise, and strategy consulting. Catering exclusively to the staffing industry, SVC is able to provide specialized advisory for this niche.

To access SVC's M&A resources page and download the free guides, visit <https://staffingvc.com/mergers-and-acquisitions-references//>
