

The future is now - solar savings analysis for your home in seconds

The renewable energy software company, PVROOF, has created an automation tool that helps fast-track solar energy installations in all households globally.

Houston, Texas Apr 14, 2023 ([IssueWire.com](https://www.issuewire.com)) - Top London researchers have created an innovative platform known as PVROOF. The PVROOF Platform instantly analyses the solar savings potential of your home in less than 60 seconds. This tool was built for global use, and therefore all homes globally can leverage the benefit of this free tool.

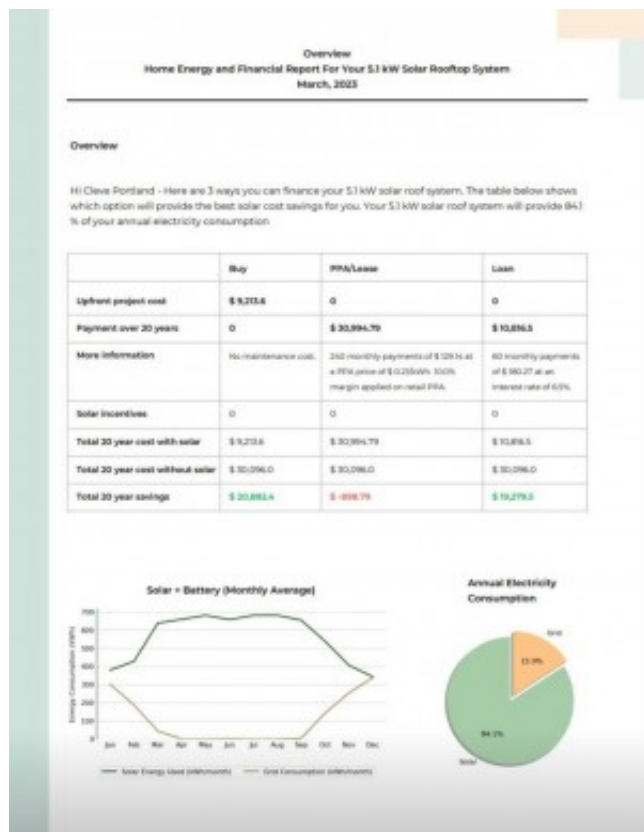

PVROOF (www.pvroof.io) developers estimate that over 200 million households will benefit from solar by 2030 alone, and the PVRoof platform will contribute greatly to fast-tracking this process.

The problem of solar panels is should not be complicated; however, most installers typically mislead homeowners on the true cost and true savings that could be derived from a solar system. In a recent survey, it was said that more than 65% of solar installers overinflate the true cost of a solar roof system, leaving homeowners with a high bill and a lower savings forecast over time. To solve this, an unbiased system (i.e., a software tool) that provides the true cost and true savings figure for homeowners in what the US solar industry needs.

PVROOF (www.pvroof.io) has therefore done this and built the renowned global solar calculator tool that does exactly that. This unbiased solar software calculator performs a detailed energy home audit with just a few homeowner questions and presents homeowners with outputs such as the recommended solar panel size for your home, cost of the total installation, 20-year savings, finance options, and more. PVRoof built this tool strictly for homeowners, to enable them to understand all the easy technical details around solar roofs and get them comfortable and confident when discussing with a solar installer on the next steps.

The PVROOF Platform was successfully launched in London, UK with a record number of memberships amongst London homeowners.
