

The Leading FinTech Giant AssetfinX Rebranded As Metaverse Development Company To Serve Top Industries

Wasilla, Alaska Apr 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - AssetfinX - The well-known enterprise blockchain development company, now stepped into the metaverse space and has been reformed as a [metaverse development company](#) to serve top industries and brands in the metaverse space.

AssetfinX - One of the popular FinTech giants of the current decade, has announced the firm is decided to enter into the metaverse space by understanding the scope and potential of the booming technology. The entire tech crew has been upgraded to work for metaverse projects with proper training, research, and development.

Previously the company was known as a blockchain development company and has a goal of empowering enterprises with blockchain development services and consultation. Now, the firm has declared to provide metaverse development services as primary services for industries and an “N” number of use cases.

The CEO Of AssetfinX, denoted that,

“ We are the early adopter of metaverse development, so we are having the responsibility to bring innovation to the industry by integrating upgraded tech stacks in our metaverse projects. Also, we have a goal of serving around 30+ industries in the metaverse space which includes, Gaming, Education, Fashion, Construction, IT industry, healthcare, automobile, and more. “

Also, he added, "Initially we are taking the gaming industry to provide the best services in the metaverse space. Our team can create any kind of game and virtual environment inside the metaverse space. For this, we have trained our developers and tech experts for 2 years on dedicated gaming projects."
