

Tosko Technologies has successfully raised 4 crore in its first round of funding

Mysore, Karnataka Apr 17, 2023 ([Issuewire.com](https://www.issuewire.com)) - Tosko Technologies Pvt Ltd, a fast-growing software startup, has successfully raised INR 4 Crore in its first round of funding. The investment round was led by Upcred.ai.

Tosko Technologies is focused on developing innovative software solutions that enable businesses to improve their operations and increase efficiency. Its flagship product, Tosko Academy, has already gained significant traction in the market, with a growing number of students and other professionals joining the course.

"We are thrilled to have the support of Mr. Raghavendra Rao and our other investors as we continue to grow and expand our business," said Ms. Srinidhi Jayaram, COO of Tosko Technologies.

"This funding will enable us to accelerate our product development and scale our operations, allowing us to better serve our customers and reach new markets," said Mr. Manoj Kumar P, Founder, and CEO of Tosko Technologies.

The funding will be used to expand the company's team, invest in research and development, and accelerate its go-to-market strategy. With this investment, Tosko Technologies plans to further strengthen its position as a leading provider of software solutions that help businesses operate more efficiently.

"We are excited to partner with Tosko Enterprises as they continue to develop innovative solutions that help businesses operate more efficiently," said Raghavendra Rao. "We believe in their vision and are confident in their ability to deliver value to their customers."

About Tosko Technologies,
