A New Mexico native, Dr. Provenghi moved around the country growing up since her father was in the

After graduating from high school in San Antonio, she attended the University of Houston for her undergraduate degree. Subsequently, she attended dental school at the University of Texas School of Dentistry at Houston where she earned her Doctor of Dental Surgery degree.

Making smiles brighter, she began her dental practice in Midland, Texas, successfully helping thousands of patients. She later relocated to El Paso and took some time to raise her two sons. As life would have it, she returned to providing loving dental care in the great Sun City and opened Awesome Smiles.

To deliver the highest level of treatment, Dr. Provenghi makes a point of using the latest technology and equipment, as well as attending regular continuing education. Her goal is to offer personalized care and help her patients feel comfortable throughout their dental visits, improving their experiences, safety, and long-term oral health.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.
